**DETAILED ACTION**

1. According to the "Amendment" received 10 September 2004, the specification has been amended; claims 1, 2, 9 and 10 have been amended

***Response to Arguments***

2. Applicant's Remarks received 10 September 2004 have been fully considered and are persuasive.

***Allowable Subject Matter***

3. Claims 1-16 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 9, the prior art fails to disclose or make obvious a reflector assembly comprising an inner and outer reflector, each having an inner reflective surface and an outer backing layer wherein the backing layer of the inner reflector is covered with a reflective layer having a reflectivity of between 0.7 and 0.99 for wavelengths between 0.1 and 100  $\mu\text{m}$ .

Regarding independent claim 1, the prior art fails to disclose or make obvious a lithographic projection apparatus comprising a reflector assembly with the limitations of the assembly in claim 9.

Regarding independent claim 2, the prior art fails to disclose or make obvious a lithographic projection apparatus comprising a reflector assembly comprising an inner and outer reflector, each having an inner reflective surface and an outer backing layer wherein the backing layer of the outer reflector has an emissivity of between 0.6 and 0.95 for wavelengths between 0.1 and 100  $\mu\text{m}$ .

Regarding independent claim 10, the prior art fails to disclose or make obvious a reflector assembly comprising an inner and outer reflector, each having an inner reflective surface and an outer backing layer wherein the backing layer of the outer reflector is covered with a reflective layer having an emissivity of between 0.7 and 0.99 for wavelengths between 0.1 and 100  $\mu\text{m}$ .

Claims 5 and 6 are allowed by virtue of their dependency on claim 1.

Claims 3 and 4 are allowed by virtue of their dependency on claim 2.

Claims 7 and 8 are allowed by virtue of their dependency on claims 1 or 2.

Claims 13, 14 and 16 are allowed by virtue of its dependency on claim 9.

Claim 11 is allowed by virtue of their dependency on claim 10.

Claims 12 and 15 are allowed by virtue of their dependency on claim 9 or 10.

5. The main feature that separates the lithographic projection apparatus and reflector assemblies apart from prior art is the use of a reflective coating with specific reflective properties on the backing layer of an inner reflector and the use of a backing with specific emissive properties on the backing layer of an outer reflector.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance"
